FOR IMMEDIATE RELEASE

CardioCard[®] Athletic PC Based Resting ECG System

CENTRAL SQUARE, NY: March 1, 2017—Nasiff Associates, Inc. announces an addition to the PC based Nasiff CardioCard[®] product line. The **NEW** PC based CardioCard[®] Athletic ECG System is designed for athletes. We assume that young or active people are not at risk for heart disease but sudden cardiac arrest is the leading death for athletes. The new CardioCard[®] Athletic ECG device is designed to assist in cardiac evaluations for athletes 13 years and older at the point-of-care. Being portable and light-weight makes it easy to bring the PC based ECG testing to where the athletes are being tested. The PC based ECG is a 20-second heart evaluation to accommodate slower heart rates found in most athletes. This allows information to travel quickly and electronically to the proper medical team when every second counts. **Save time—Save lives!**

Performance and Portability

As with all of the Nasiff PC based CardioCard[®] products this PC-based CardioCard[®] Athletic ECG System is available with a Bluetooth or USB connection. The PC-based CardioCard[®] Athletic ECG System is full-featured and can accommodate traditional/common ECG testing as well.

All Nasiff CardioCard[®] products have:

- A Cardio Universal EMR Interface™ for most EMRs
- A Cardio Patient Data Management™ System
- Built-In networking, unlimited patient database with advanced security
- Excellent customer support and training
- Reliable, user-friendly, compact and durable devices
- Feature rich at competitive pricing
- Veteran Owned and developed and manufactured in the USA for legendary quality
- FDA clearance since 1989

A true alternative for PC based 12-lead interpretive ECG testing. All Nasiff CardioCard[®] products are feature rich and competitively priced. All Nasiff CardioCard[®] products come with a 2-year warranty on all devices and software. Nasiff Associates also provides technical and customer support on all devices via web or phone.

Please contact Nasiff Associates, Inc. for additional information and the distributor nearest to you.
