CardioCard® Suite ECG — *we care about you and your patients*

Nasiff Associates, Inc. is the **FIRST** and continues to take the lead in PC based ECG Systems. CardioSuite is the first complete fully integrated PC based Resting ECG, Stress Testing ECG and Holter Monitoring PC cardiology system.

As the highest developed PC ECG on the market, every Nasiff cardiology system can be customized to meet the needs of your practice, while enhancing diagnostic and administrative performance.

By successfully integrating the individual CardioCard modules of interpretive PC based Resting ECG, Stress Testing ECG (with treadmill) and Holter Monitoring ECG (with digital recorder) into a single system, you turn your office into a complete integrated cardiology workstation with the CardioSuite.

The patient records and test results from all ECG components are seamlessly stored and managed by a single database which is unlimited and offers EMR and networking compatibilities. Need it to be portable? That's no problem with the many options offered with the Nasiff CardioCard Systems. Performing fast testing and managing them easily with you at the point-of-care.

*** Resting and Stress are available in Bluetooth (Windows PC/laptops, MAC PC/laptops (with Parallels, Boot Camp...)) and Android mobile devices and BLE (Apple iPhone, iPad and Android mobile devices)**
